Alexander Schwallbach  
Suzanne Seitz  
Harriet-Marcia Shakir  
John Williams

Along with similar organizations across the nation, HAVEN is taking the necessary precautions to keep our residents, clients, and staff safe during the COVID-19 outbreak.

We are deeply concerned about the wellbeing and health of all of our partners and the families that we serve. Internally, we are encouraging frequent handwashing and sanitizing, conducting a thorough deep clean of shared and personal spaces, and canceling non-essential meetings until further notice.

We value each and every member of our community and place their safety first; therefore, we will be following all mandated guidelines as they evolve.

We will continue to comply with state and national guidelines while providing uninterrupted, critical services to survivors of intimate partner violence, sexual assault, and their families.

Thank you for your support and understanding during this time.

With great appreciation,

Aimee Nimeh  
President/CEO
